

## Navellier Tactical Global Allocation Plus

A diversified portfolio including domestic equity, international, alternative, and fixed income components using SPDRs<sup>®</sup>, iShares<sup>®</sup>, PowerShares, and Vanguard ETFs.

### Navellier Tactical - Defensive ETF Portfolios

- Disciplined, scientific approach to tactical investing
- Focus on preservation of investor capital in down markets
- Puts investor capital to work during sustained bull markets
- Highly responsive research process that is designed to react to macro trends
- Uses highly liquid, low cost ETFs

### Navellier Tactical Global Allocation Plus Portfolio Key Features

- Invests in all key equity sectors and major asset classes, including bonds, real estate, gold, foreign markets, and cash
- Utilizes only simple, readily available ETFs (SPDRs<sup>®</sup>, iShares<sup>®</sup>, PowerShares, and Vanguard) and fixed income bond ETFs
- Uses NO shorting, leverage, inverse ETFs, or exotic derivative investments
- Focuses primarily on downside risk management, especially in weak markets
- Under extreme market conditions, the portfolio can build and hold substantial defensive positions to avoid losses
- Participates in rising markets with the ability to outperform in down markets
- 100% quantitative process, highly disciplined, daily calculation

Past performance does not guarantee future results; investment in financial instruments involves substantial risk and has the potential for partial or complete loss of funds invested. Results presented include reinvestment of dividends and other earnings. See important disclosures at end of document. NCD-18-756

2014 <sup>1</sup>	2,107	0.7	<1%	6	9.98	8.73	9.17	N/A <sup>2</sup>

<sup>1</sup>Performance calculations for the period ended December 31, 2014 includes 11 months of history.

<sup>2</sup>N/A information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

**1. Compliance Statement** - Navellier & Associates, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with GIPS standards. Navellier & Associates, Inc. has been independently verified for the periods January 1, 1995 through December 31, 2017. A copy of the verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

**2. Definition of Firm** - Navellier & Associates, Inc. is a registered investment adviser established in 1987. Registration does not imply a certain level of skill or training. Navellier & Associates, Inc. manages a variety of equity assets for primarily U.S. and Canadian institutional and retail clients. The firm's list of composite descriptions as well as information regarding the firm's policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

**3. Composite Description** - The Navellier Tactical Global Allocation Plus Wrap Composite includes all discretionary Navellier Tactical Global Allocation Plus equity accounts charged a wrap fee and managed with similar objectives for a full month, including those accounts no longer with the firm. This global strategy is a tactical, defensive portfolio that invests in equity sector ETFs, international ETFs, ETFs representing alternative investments, fixed income ETFs, and takes defensive positions by investing in bond ETFs staggered along the yield curve when conditions warrant. The strategy may invest in a cash equivalent, such as money market funds. The strategy uses sine waves to measure the "wave heights" of the market. These sine waves produce signals that indicate when the portfolio should move in and out of stock or bond ETFs. Performance figures that are net of fees take into account advisory fees, wrap fees, and any brokerage fees or commissions that have

been deducted from the account. "Pure" gross-of-fees returns do not reflect the deduction of any trading costs, fees, or expenses, and are presented only as supplemental information. Performance results are total returns and include the reinvestment of all income, including dividends. The composite was created February 1, 2014. Valuations and returns are computed and stated in U.S. Dollars.

**4. Management Fees** - The management fee schedule for accounts is generally 40 to 100 basis points; however, some incentive fee, fixed fee, and fulcrum fee accounts may be included. Fees are negotiable, and not all accounts included in the composite are charged the same rate. Bundled fee accounts make up 100% of the composite for all periods shown. Wrap fee schedules are provided by independent wrap sponsors and are available upon request from the respective wrap sponsor. Wrap fees generally range from 100 to 200 basis points and include custody, trading expenses, and other expenses associated with the management of the account. The client is referred to the firm's Form ADV Part 2A for a full disclosure of the fee schedule.

**5. Composite Dispersion** - If applicable, the dispersion of annual returns is measured by the standard deviation across asset-weighted portfolio returns represented within the composite for the full year.

**6. Benchmark** - The Global Balanced Blended Benchmark is a blended benchmark using the following indices: S&P 500 (45%), MSCI World ex U.S. (25%), and Barclays Capital U.S. Aggregate Bond Index (30%). The benchmark is rebalanced monthly. Prior to July 2013, this blended benchmark was referred to as the Allocator Blended Benchmark. The S&P 500 Index measures the performance of the 500 leading companies in leading industries of the U.S. economy, focusing on the large cap segment of the market, with approximately 75% coverage of U.S. equities. The MSCI World ex U.S. Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. As of June 2014, the MSCI World ex U.S. Index

consisted of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, and the United Kingdom. MSCI World ex U.S. Index targets 85% of the free float adjusted market capitalization. The Barclays Capital U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMB. The returns for the index includes the reinvestment of any dividends and interest income. The asset mix of the composite may not be precisely comparable to the presented index. Presentation of index data does not reflect a belief by the Firm that the Global Balanced Blended Benchmark, or any other index, constitutes an investment alternative to any investment strategy presented in these materials or is necessarily comparable to such strategies.

**7. General Disclosure** - The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The standard deviation is not presented because 36 months of history is not available. Actual results may differ from composite results depending upon the size of the account, custodian related costs, the inception date of the account and other factors. **Past performance does not guarantee future results. Investment in equity strategies involves substantial risk and has the potential for partial or complete loss of funds invested. Results presented include reinvestment of all dividends and other earnings.** The securities identified and described do not represent all of the securities purchased, sold, or recommended for client accounts. It should not be assumed that any securities recommendations made by Navellier in the future will be profitable or equal the performance of securities made in this report. A list of recommendations made by Navellier & Associates, Inc. for the preceding twelve months is available upon request.
