About Navellier

Portfolio Management:

Louis G. Navellier, *Lead Portfolio Manager*
Michael J. Borgen, *Senior Portfolio Manager*
Michael Garaventa, *Portfolio Manager*

Benchmark: Russell 2000 Growth

Firm Background: Navellier & Associates, Inc. is a registered investment advisor and was founded by Louis G. Navellier. Navellier has published its investment research since 1980, and has managed money for institutions and high net worth individuals since 1987.

Objective: Navellier's Small-to-Mid Growth Portfolio invests primarily in small-to-mid cap growth stocks with potential for long-term capital appreciation.

Investment Process: Navellier uses a highly disciplined, quantitative process to identify inefficiently priced small-to-mid cap growth stocks with superior fundamentals relative to the underlying market. In addition to identifying stocks with superior reward/risk (risk-adjusted return) characteristics, the investment process seeks to identify stocks that have superior earnings, revenue, and profit margin expansion relative to the general market.

Wrap performance beyond 10 years available upon request.

1. Compliance Statement – Navellier & Associates Inc. claims compliance with the Global investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Navellier & Associates Inc. has been independently verified for the periods January 1, 1995 through December 31, 2020. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Navellier Small-to-Mid Growth Composite has had a performance examination for the periods January 1, 1995 through December 31, 2020. The verification and performance examination reports are available upon request."

2. Definition of Firm – Navellier & Associates, Inc. is a registered investment adviser established in 1987. Registration does not imply a certain level of skill or training. Navellier & Associates, Inc. manages a variety of equity assets for primarily U.S. and Canadian institutional and retail clients. The firm's list of composite descriptions as well as information regarding the firm's policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request.

3. Composite Description – The composite creation date is March 31, 2005. As of October 1, 2019, the Navellier Small- to-Mid Growth strategy was redefined to include both wrap and institutional accounts to more broadly market the strategy. Prior to this date, only wrap accounts were included in the composite. The Small- to-Mid Growth Composite name changed from the Small- to-Mid Growth Wrap Composite to the Small- to-Mid Growth Composite. The Navellier Small-to-Mid Growth Composite includes all discretionary Small-to-Mid Growth equity accounts that are managed with similar objectives for a full month, including those accounts no longer with the firm. The strategy is designed for aggressive investors seeking long-term capital growth appreciation and seeks to achieve the highest possible returns while controlling risk. The strategy invests in U.S. listed securities with market capitalizations between $100 million and $10 billion. At any given time, the strategy may hold up to 15% in American Depositary Receipts (ADRs). The strategy floats between both small and mid capitalization stocks depending on the liquidity and risk associated with individual stocks. Normally, in strong bull markets, the strategy will concentrate on many small capitalization stocks that are benefiting from rising trading volume and institutional accumulation. In more selective stock market environments, the strategy may concentrate on mid capitalization stocks that generally perform more consistently during "choppy" markets. Typically, the strategy invests in approximately 60-80 stocks that pass Navellier's stringent quantitative and fundamental criteria. The strategy invests in smaller capitalization stocks that may trade fewer shares than larger capitalization stocks; the liquidity risk among these types of stocks may increase the strategy's risk. Performance figures that are net of fees take into account advisory fees, wrap fees, foreign withholding tax and any brokerage fees or commissions that have been deducted from the account. "Pure" gross-of-fees returns do not reflect the deduction of any trading costs, fees, or expenses, and are presented only as supplemental information. Performance results are total returns and include the reinvestment of all income, including dividends. The composite inception date is January 1, 1985. Valuations and returns are computed and stated in U.S. Dollars.

4. Management Fees – The management fee schedule for accounts ranges from 0.30% to 1.25% of assets under management; however, some incentive fee, fixed fee, and fulcrum fee accounts may be included. Fees are negotiable, and not all accounts included in the composite are charged the same rate. Wrap fee schedules are provided by independent wrap sponsors and are available upon request from the respective wrap sponsor. Wrap fees generally range from 100 to 200 basis points and include custody, trading expenses, and other expenses associated with the management of the account. There are zero commissions accounts included in the composite. The client is referred to the firm's Form ADV Part 2A for a full disclosure of the fee schedule. Net performance is calculated using actual fees.

5. Composite Dispersion – If applicable, the dispersion of annual returns is measured by the standard deviation across asset-weighted portfolio level gross returns represented within the composite for the full year.

6. Benchmark – The primary benchmark for the composite is the Russell 2000® Growth Index. The Russell 2000® Growth Index measures the performance of those Russell 2000 companies with higher price-to-book ratios and higher forecasted growth values. The secondary benchmark for the composite is the Russell 2500® Growth Index, which measures the performance of those Russell 2500 companies with higher price-to-book ratios and higher forecasted growth values. These indices are considered reasonable measures of the performance of the small cap, growth oriented U.S. companies. The returns for the Russell 2000® Growth and Russell 2500® Growth indices include the reinvestment of any dividends. The asset mix of small to mid cap growth equity accounts may not be precisely comparable to the presented indices. Presentation of index data does not reflect a belief by the Firm that the Russell 2000® Growth or Russell 2500® Growth indices, or any other index, constitutes an investment alternative to any investment strategy presented in these materials or is necessarily comparable to such strategies.

7. General Disclosure – GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. The three-year annualized standard deviation measures the variability of the gross composite and the benchmark returns over the preceding 36-month period. Actual results may differ from composite results depending upon the size of the account, custodian related costs, the inception date of the account and other factors. ***Past performance does not guarantee future results. Investment in equity strategies involves substantial risk and has the potential for partial or complete loss of funds invested. Results presented include reinvestment of all dividends and other earnings.*** The securities identified and described do not represent all of the securities purchased, sold, or recommended for client accounts. It should not be assumed that any securities recommendations made by Navellier & Associates, Inc. in the future will be profitable or equal the performance of securities made in this report. A list of recommendations made by Navellier & Associates, Inc. for the preceding twelve months is available upon request.
