Effective January 1, 2023, Navellier & Associates Inc. switched portfolio management software services to Ridgeline Inc. as the provider and as of that date will accrue and account for changes in cash and dividends on a daily basis rather than a month end basis in calculating performance.

²Beginning as of April 1, 2023, the composite's pure gross and net performance excludes the performance of accounts, which were not charged investment advisory fees. This required exclusion of non-fee paying accounts had the effect of reducing the composites' actual net performance calculation which actual net performance would have been higher if those non-fee paying accounts' performance had been included in the composite performance calculation. Prior to April 1, 2023, in compliance with our GIPS standards, performance of non-fee paying accounts was included in the calculations of the composites' pure gross and net performances.

3. Composite Description – The composite creation date is March 31, 2005. As of October 1, 2019, the Navellier Large Cap Growth strategy was redefined to include both wrap and institutional accounts to more broadly market the strategy. Prior to this date, only wrap accounts were included in the composite. The Large Cap Growth Composite name changed from the Large Cap Growth Wrap Composite to the Large Cap Growth Composite. The Navellier Large Cap Growth Composite includes all discretionary Large Cap Growth equity accounts that are managed with similar objectives for a full month, including those accounts no longer with the firm. The strategy is designed for aggressive investors seeking capital appreciation from well-established companies and seeks to achieve the highest possible returns while controlling risk.
